WORK EXPERIENCE (+1.8years)

Frontend Developer

Trusted Communities Organization

(Aug 2024 – Till Date)

- Developed responsive, user-centered web applications using React, Next.js, WordPress, and MongoDB, integrating RESTful APIs for dynamic functionality and Firebase for real-time data. Leveraged GCP for scalable cloud solutions, enhancing performance and reliability across platforms. Customized WordPress themes to meet client requirements, delivering optimized, engaging interfaces.

Web Developer Internship (MERN stack)

CODSOFT

(June 2024)

- Developed full-stack applications using the MERN stack (MongoDB, Express.js, React, and Node.js), gaining hands-on experience in building and integrating RESTful APIs, managing databases, and creating dynamic user interfaces.

PROJECTS

Drone803: Drone E-Commerce Webpage

React Project

 www.drone803.netlify.app

- Developed a mobile-responsive e-commerce site for drones. Technologies Used: HTML, CSS, JavaScript, Tailwind CSS, React, ContextAPI.
- Features:** Product catalog, search functionality, user authentication, shopping cart, checkout process, responsive design, API integration, cross-browser compatibility.

Haven Home

React Project

 www.heavenhome.netlify.app

- Developed a user-friendly web application for hotel management using React, React Query, Context API, Supabase, and Tailwind CSS.

ScaleUpAdvisory

Trusted Communities Organization Project

 www.scaleupadvisory.co

- Developed websites using WordPress and JavaScript, ensuring responsive, dynamic, and user-friendly experiences tailored to client needs.

HOBBIES

- Computer Hardware:** Building and troubleshooting computer systems, upgrading components, and optimizing performance.

CERIFICATIONS

- Postman– Student Expert

CERIFICATIONS

- English, Hindi, Gujarati
